Western Joint Branch

Technical Lecture

Don't do the everyday, everyday – an insight into Royal Naval Reserves Training and Experience

Presented by Sub-Lieutenant Richard Sleight

Date: Monday, 24th April 2023
Time: Refreshments and Sandwiches at 19:00, lecture starts at 19:25
Venue: Lecture Theatre 1N05, Building N, UWE, BS16 1QY
Organiser: Western Joint Branch RINA/IMarEST
Contact: secretary.wjb@branches.imarest.org

Background: Richard Sleight's civilian career involves him providing engineering support to the design and build of the Royal Navy's newest warships. As a Sub-Lieutenant in the Royal Naval Reserves (RNR) he then gets to experience first-hand how the Royal Navy and its equipment contribute as a global maritime force.

Richard will provide an insight into the training and experiences gained as a member of the RNR and how the RNR develops the capability to support the Royal Navy. He will discuss the role of the RNR, its branches and the training pipeline towards trained strength and the provision of operational capability. Richard will share the experiences and adventures along the way that led him to spending time as a member of Ship's Company on the Royal Navy's newest aircraft carrier, HMS PRINCE OF WALES on its first foreign visit. By not doing the everyday, everyday Richard continues his pursuit of becoming a more knowledgeable and experienced contributor to the UK defence enterprise both in his civilian and RNR roles.

Presenter: Further to his RNR role, Richard works for BAE Systems as a Principal Safety Engineer working on the Type 26 Global Combat Ship project. He specialises in Marine Systems safety supporting the engineering teams in their provision of safety assurance and justification of the platform.

Registration:
We will be running this as a Hybrid Event - Click [Here](#) to Register

CPD Certificates will be sent out to registered attendees.
