TECHNICAL PRESENTATION

“Installation Challenges of Offshore Wind Farms”

The presentation will look at challenges faced with installing offshore windfarms. The presentation will briefly introduce the main components of the farm and will follow on to present the various installation methodologies typically used discussing challenges faced, the vessels available and the limitations.

Tuesday 18th February 2020
At Corinthia Palace Hotel, Attard

The location of this presentation is The Business Suite

The presentation will be given by Ing. Christopher Zammit, a chartered Naval Architect with the London RINA Branch and works as a consultant naval architect with Waves Group in London, a maritime consultancy focusing on offshore energy, shipping and related maritime issues. Chris graduated as a mechanical engineer from the University of Malta and later graduated in Naval Architecture from the University of Southampton. He has been involved in designing offshore structures focusing on the transport and installation phases.

*Members and addressees are cordially invited to attend
and are welcome to bring their guests with them.
A certificate of attendance will be issued upon request.
Coffee, tea and sandwiches will be served at 17.30 hrs.
The presentation will start at 18.00*
