Venue: A&P Falmouth

Organiser: YMN Devon & Cornwall Joint Branch RINA/IMarEST

Contact Information: Harry Newton – Harry.Newton@babcockinternational.com

A&P Falmouth Guided Tour

A&P Falmouth ship repair is superbly situated in the world's third largest natural deep water harbour. Making the most of its natural resource and convenient location close to the shipping lanes of Northern Europe, Falmouth's three graving docks provide up to 100,000 dwt dry dock capacity, with the total wharfage with craneage and all other technical services, extends to 2.5km. This tour, organised by the Young Member's network, provides the opportunity to view the facility and the vessels currently under maintenance periods close up.

Please Note:

Places for the tour will be issued on a first come, first served basis. The docks are a working site, therefore attendees should be aware of any potential hazards and must take note of the safety brief given by the tour guide. Suitable footwear will be required and Hi-Vis will be provided. Attendance is at your own risk.

To book your place on the tour please email full contact details to:
Harry.Newton@babcockinternational.com
