### **"THE ADDED VALUE OF THE MARINE WARRANTY SURVEYOR (MWS) IN THE OFFSHORE AND MARINE INDUSTRY"**

by

**DR. AURELIANO SCHIRRIPA**, PhD CEng MRINA  
ENERGY TECHNICAL DIRECTOR  
AQUALIS BRAEMAR LOC GROUP

**REGISTER:** <https://us02web.zoom.us/meeting/register/tZEsd6spz0uGtEUoUj98MSJi5aIPiYEWIuh>

*At 17:55 for 18:00 hours (duration approximately 1 hour)*

Aureliano will note the increase of accidents within the marine industry, both shipping and oil & gas. As well as the regrettable potential for loss of human life, accidents may lead to losses of high-cost assets. The presentation envisages an overview of some of these accidents and why they happened, with discussion on what could have been done to avoid them.

The role of the marine warranty surveyor is to look at project details and to plan to reduce the risks to an acceptable level.

A short description of the role of the marine warranty surveyor within the marine industry will be provided, together with the risks of a generic marine operation, what can go wrong and how it could have been mitigated. Finally, we will identify the added value of having the marine warrant surveyor as integral part of the project from the start.
