

Naval Architect - All levels - SW England

We currently have multiple Naval Architect vacancies across the South West. There is a particular need for experienced Naval Architects with design experience on both surface and subsurface vessel types. In return, you will be given the opportunity to design cutting edge concept vessels for clients across the globe, with above industry standard compensation package.

Senior Naval Architect - NW England

A leading manufacturer of patrol & survey vessels to military and commercial clients, has a requirement for Senior Naval Architect. Working with a close-knit team of designers, you will be responsible for the design and build of the vessels. You'll also be experienced with composite materials and have strong project management capabilities.
