

RINA/IMarEST Technical Presentation

Cruise Ships and COVID-19

Presenters

Robert McMahon
Marine Engineer

Michael Kelly
Pilot, Port Authority of NSW

Bernie Farrelly
Project Manager, Tas Bull Seafarers Foundation

Sr Mary Leahy
Stella Maris Chaplain and Regional Coordinator for Oceania

Date

Wednesday 14 October 2020

Time

6:30 pm AEDT

Meeting

This presentation will be held as a video-conference webinar hosted by IMarEST in London using the Zoom platform.
Registration for the presentation is required (see below).

This presentation is all about understanding and solving some of the technical, management and operating problems arising on cruise ships and other vessels due to the COVID-19 outbreak. How can microscopic COVID-19 pathogens transmit from person to person, bring the international cruise industry to a standstill and immobilise some of the world's largest warships?

In this presentation we look at that question from the perspective of maritime professionals responsible for the safe, efficient and seaworthy operation of ships under their management oversight.

Registration Registration for this presentation may be completed at
<https://www.eventbrite.co.uk/e/webinar-cruise-ships-and-covid-19-problem-tickets-118262266623>

Click on *Register*, and enter 1 for either IMarEST Member or Non-member, and click *Register*. Enter your first and last names and email address for both Contact and Member/Non-member, and click *Register* to finish.

When registered, you will receive a confirmation email containing your ticket number, and then a separate email from IMarEST containing details of how to login and watch the event and how to ask questions.
