## RNLI Lifeboat and Station Tour

Did you know that last year alone, the RNLI went to the rescue of over 10,000 people? Have you ever wondered what goes on behind the scenes of such an organisation and what's involved in providing such a critical, 24-hour, on call search and rescue service that can deploy come rain or shine?

This is a great opportunity to visit Plymouth Lifeboat Station, currently the home of the Sybil Mullen Glover, a Severn Class All Weather Lifeboat and the Millennium Forester, an Atlantic 75 B-Class Inshore Lifeboat. You will get the chance to gain an operational overview of the station from a serving crew member who will provide a guided tour of the boats and the station, taking any questions you may have.

Only 15 places are available for this tour, to reserve a place please email [Stuart.Baldwin@babcockinternational.com](mailto:Stuart.Baldwin@babcockinternational.com). Although there is parking, spaces are limited so please look into alternative travel arrangements if possible. Places are on a first come first serve basis, so don't miss out!!
