OVERVIEW

Today, the international maritime industry faces new challenges as it emerges from the global financial crisis. It is therefore understandable that the industry's priority and attention is on consolidation and continued survival. However, at such a time it is all the more important for the industry to look ahead in order to respond to the continuing challenges it will face from the increasing demands of operators, regulators and society for greater efficiency, safety and the protection of the environment, as it emerges from the current crisis. This response will require innovative thinking from all sectors of the maritime industry, and particularly those involved in ship design and construction.

The International Conference on Ship & Offshore Technology - Indonesia 2010 will take "Developments in Ship Design & Construction" as its theme, and will bring together members of the international maritime industry to present and discuss the latest developments in the ship design and construction process which will provide the improvements in productivity and cost-competitiveness necessary to respond to the demand for lower cost of ownership and greater environmental sensitivity.

ICSOT - Indonesia 2010 will celebrate the unique occasion of the 150th anniversary of the founding of the Royal Institution of Naval Architects, the 100th anniversary of the founding of PT DPS, 50th anniversary of the founding of ITS, and 250th anniversary of the Lloyd Register of Shipping.

CONTENTS

Papers are invited on the following topics:

- Hydrodynamics and structures
- Design and construction of all ship types
- Fabrication & welding technology
- Corrosion and coating technology
- Project management
- System integration
- Quality assurance
- Regulation
- Material developments; steels, alloys, composites, etc.

SUBMISSION OF ABSTRACT

The author(s) are requested to submit abstract on or before 31 July 2010. The extended abstract (not exceeding 500 words) must carry sufficient information for assessment and should contain the following:

- Full title of the paper
- Name(s) of Author(s), affiliation and full address with telephone, fax numbers and email address
- Keywords
- Objectives, results and conclusions

After provisional acceptance of the abstract, the full paper will be peer-reviewed before its final acceptance. The guidelines for preparing the camera-ready paper will be provided with the provisional acceptance letter. All submissions should be both in MS Word and PDF through email: anasirudin@na.its.ac.id or trika@its.ac.id
