

# Safety and Performance at the Workplace Today

FACING THE CHALLENGES

## Conference 2010

15th November 2010

Lloyd's Register  
71 Fenchurch Street,  
London  
EC3M 4BS

in aid of **Lifeboats**

Learn and develop  
**safe working practices**  
from cross-industry experts

Learning from across industry Health and Safety policy for corporate business assurance - proactive or reactive measures • What role has the human element played in occupational casualties? • Risk management and people safety • Corporate legal compliance versus OHS • Philosophy and strategic framework of OHS • The insurance perspective: KPIs and OHS risks • Learning from cross-industrial practices: transportation and process industries • The role of community and charity organisations in OHS

Key speakers include Richard J. Kennedy, Aviation Safety Manager - Europe, Boeing Commercial Airplanes • Tom Boardley, Marine Director, Lloyd's Register • Anson Jack, Director of Policy, Research and Risk, UK RSSB and other prominent leaders from across industry...

Sponsored by:

**Lloyd's  
Register**

**250 YEARS  
OF SERVICE**

Attend the conference and help the RNLI buy a new lifeboat – See inside...

# Facing the Challenges

The conference will tackle many controversial safety issues and will encourage debate and opinion from the audience; exploring why accidents still happen and what industries, government and individuals can do to improve safety standards.

## What can I expect from the conference?

The conference will offer delegates the following:

A unique opportunity to learn and share cross-industry experiences.

Debate and learn what risks are acceptable?

Networking; meet and discuss current issues with experts from differing industries.

Innovative ideas and solutions relating to your safety practices.

Debate the most recent developments.

Best practice ideas.

Learn from real-life experiences and the influence on safety thinking cultures.

How individuals can influence and improve safety standards.

Sponsorship Opportunities (please contact us for a sponsorship brochure)

In 2008/2009  
there were **180**  
**work-related**  
**fatalities** and  
**131,895**  
other injuries

Current estimates suggest the **Cost** to the **economy** of work-related injuries is between **£3.2 billion - £6.2 billion** a year.

## Who Should Attend?

The conference is targeted at executives from the transport and consumer industries, government and charity organisations keen to develop innovative Occupation Health and Safety ideas from a selection of experts.

The event may also be relevant for students studying safety in the workplace.

## Conference Fees

This is a Charity event and all income will be provided to the RNLI.

Who you are	Early Bird (before 17th September 2010)	Regular
Standard	£250	£350
Academics & charities*	£50	£75
Students*	£20	£30

\*Proof of status will be required upon entry to the venue

For further information and to register please visit [www.safetyandperformance.org](http://www.safetyandperformance.org)

## The Venue

The conference will be held at the historic premises of Lloyd's Register, 71 Fenchurch Street, London. Sessions will take place in the ornately decorated General Committee Room, the site of world-changing discussions about safety for over a hundred years. In the heart of the City, the building is close to several main underground and overground train stations, the DLR and major bus routes.

## The Cause

All profit from the conference will go directly to the RNLI to fund and maintain a new Thames lifeboat. The boat will be shared between the Chiswick and Tower lifeboat station. In 2009, Tower and Chiswick lifeboat stations rescued 225 people, all without any funding from the government; the Thames lifeboats are funded purely by voluntary donations and events such as these.
